PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate at NIT Agartala (CGPA 9.28/10) focused on AI/ML, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG) and optimization algorithms. Built a multi-agent AI system, an offline LLM-based predictive copilot and a quantum-inspired routing engine. Seeking AI/ML and software engineering internship and research opportunities.

EDUCATION

National Institute of Technology, Agartala | B.Tech, Computer Science and Engineering | 2025 - 2029 | **CGPA: 9.28/10**
Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks | Class XII: 95% | Class X: 97%

TECHNICAL SKILLS

Languages: Python, Java, C, SQL, TypeScript, Swift
AI/ML: Machine Learning, Deep Learning, Generative AI (GenAI), Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), LSTM, Embeddings, Semantic Search, Knowledge Graphs
Frameworks and Libraries: TensorFlow/Keras, PyTorch, scikit-learn, Pandas, NumPy, NetworkX, OSMnx, Next.js, React, Streamlit, Ollama
Databases and Tools: PostgreSQL, MySQL, Supabase, Git, GitHub, VS Code, Jupyter Notebook
Certifications: AWS Educate - Introduction to Machine Learning (2026); AWS Educate - Introduction to Generative AI (2026)
Optimization: Quantum Particle Swarm Optimization (QPSO), Metaheuristic Optimization, Dijkstra, A*, Genetic Algorithm (GA), Ant Colony Optimization (ACO)

PROJECTS

Quantum-Inspired Traffic Optimization (SIH 2026) - AI/ML and Optimization Engineer | Sep 2026 - Present
Technologies: Python, NumPy, QPSO, NetworkX, OSMnx, Metaheuristic Optimization | GitHub: github.com/rudrakshsharma1312-gif/Sih-new-login

- Developing a Quantum Particle Swarm Optimization (QPSO) routing engine on 600+ node urban road graphs for multi-vehicle traffic optimization.
- Building a 5-vehicle, 8-destination routing solution for logistics companies across normal, rush-hour and accident scenarios, optimizing travel time, distance, congestion and emissions.
- Benchmarking QPSO against Dijkstra, A*, Genetic Algorithm (GA) and Ant Colony Optimization (ACO) over 30 runs per algorithm to analyze fitness, runtime and convergence.

Zentro AI - Full-Stack AI Developer | May 2026
Technologies: Next.js, React, TypeScript, Tailwind CSS, Supabase, Knowledge Graphs | GitHub: github.com/gurleen55555/zentro-ai-league

- Built an individual multi-agent Business Operating System for Microsoft Agents League 2026 (Reasoning Agents Track).
- Developed 5 AI agents for reasoning, executive insights, lead intelligence, revenue risk and meeting intelligence, powered by a Company Brain knowledge graph.
- Added citations, confidence scores, explainable reasoning paths and an ontology structure; delivered documentation and a local demo; passed build and lint checks.

AstraGrid AI - AI Engineer (LLM and RAG) | Jul 2026
Technologies: Python, Streamlit, TensorFlow/Keras, LSTM, scikit-learn, Ollama, Phi-3 Mini, RAG | GitHub: github.com/gurleen55555/AirGappedCopilot

- Built an offline predictive copilot with a 3-member team for Bharatiya Antariksh Hackathon 2026, designed for secure air-gapped environments.
- Implemented local Phi-3 Mini inference and retrieval-grounded (RAG) runbook workflows for Issue-Cause-Action recommendations without cloud APIs.
- Trained an LSTM on 2,000 synthetic telemetry records, achieving 85.93% accuracy, 0.85 macro F1 and 0.97 failure recall.

EXPERIENCE

Google Student Ambassador | May 2026 - Present

- Reached 200+ participants through about 5 campaigns and sessions on AI, technical skills and Gemini; created 6-7 social media posts.
- Supported about 50-60 girls with technical guidance, AI awareness and community engagement.

Technical Operations Assistant | Levitate Labs (Remote) | May 2026 - Present

- Supported CRM, automation, database, API and backend workflows, and sales-supporting technical systems.
- Contributed to an estimated 40% improvement in sales efficiency through lead handling, reporting and workflow optimization.

LEADERSHIP AND ACHIEVEMENTS

- **Core Member, DSAI Club, NIT Agartala:** core member of the institute's largest technical club; hosted DSAI Orientation 2026.
- **SIH 2026 College Internal Round Qualifier:** cleared the internal selection with the quantum-inspired traffic project.
- **Technical Team Member, Nari Udaan:** supported technical-skills and digital-learning initiatives reaching about 100 girls.
- **Member, Rewriting the Code:** technical learning, mentorship and women-in-technology programs.
- **Best Delegate,** KACE-IX MUN (about 150 participants); **Verbal Mention,** NITA-MUN (about 200 delegates).
